## Montréal Communiqué

March 3rd, 1971.

For release at will

The Montreal YMCA campaign for \$400,000 officially gets underway Monday, March 8th.

Funds will help underwrite dozens of projects affecting thousands of persons of all ages in Greater Montreal.

A number of undertakings initiated by the Y in Montreal have already emerged as prototypes for people-serving associations across the nation.

Programs now include both long-range efforts to find lasting answers to emerging problems and activities to meet the growing volume of day-to-day emergencies.

At the same time, new ways are being developed to help boys and girls cope with and enjoy their formative years.
